

### Comfy Goes International with Infosys, Leader in Smart Building Tech

© 2020 Comfy Inc. All rights reserved.

We kicked off 2020 achieving a major milestone: Comfy went international! And we couldn't have asked for a more momentous site: the world-renowned Mysore campus of Infosys in India. A global leader in consulting, technology, outsourcing and next-generation services with over 100,000 employees and 150 clients across 50 countries, Infosys is commonly dubbed "the Google of India." We are thrilled to bring Comfy to their 340-acre Mysore campus, home to the Infosys Leadership Institute and Global Education Center, the world's largest corporate training facility.

Infosys is a leader in smart buildings and infrastructure innovation and sustainability.

# Comfy's Radiant Cooling

## United States

A system that uses chilled water circulated through pipes in a building's ceiling or walls to provide comfortable cooling without the use of fans or ducts, with an added layer of personalized control through a mobile app.
