

Energy & Water

Water Industry

Energy & Water/Enva PWR is one of the leading contractors in the construction of processing plants and systems for district heating, cooling, water and sewage.

We have taken part in many of the major infrastructure development within municipal water and sewage in and around Oslo. In addition, we build municipal waterworks all over Norway.

Energy & Water supply the Scandinavian market as an EPC contractor with:

- Waterworks
- Water & waste water infrastructure
- Energy plants - heating and cooling
- Heating and cooling infrastructure
- Renewable energy concepts
- Service, maintenance, & operations

ENWA District Cooling

Norway
